

YUJA – ACCESS THE PLATFORM & DOWNLOAD RECORDING SOFTWARE

Teaching and Learning Support Service (TLSS), uOttawa

CONTEXT

YuJa is a cloud-based video capture, editing and streaming service available to the entire university community. This platform can be accessed directly from Virtual Campus (Brightspace). This guide details how to access **YuJa** from your course spaces.

SECTION 1: ACCESS YUJA DIRECTLY WITHIN BRIGHTSPACE

1. Login to Virtual Campus using your uOttawa single sign-on (SSO) credentials using the following link: uOttawa.Brightspace.com

user@uOttawa.ca

SECTION 2: DOWNLOAD YUJA VIDEO CAPTURE SOFTWARE

Note – No software installation is required if you are viewing a video. However, if you wish to create a recording, you will need to download and install the **YuJa Software Capture Tool**. Refer to [Section 3](#) for more information about system requirements and recommendations.

1. Once you are in the **YuJa** section, click on **Create Recording**.

2. If this is your first time using **YuJa Software Capture**, click on **Download**.

3. As soon as the installation file has finished downloading, you can open it to start the installation process.

Please refer to our **YuJa – Create a video using the Software Capture Tool** guide for information on using the **Software Capture** tool to record.

SECTION 3: SYSTEM REQUIREMENTS & RECOMMENDATIONS

- Processor: 2 GHz x 86 – or x64-bit dual core processor (Recommended: 2.4 GHz, Quad Core).
- Memory (RAM): 2 GB RAM (Recommended: 4 GB).
- Hard Disk: 100 MB for install (approximately 250 MB per hour of content for temporary storage).
- OS System requirements: Windows 7, Windows 8, Windows 8.1, and Windows 10 (both 32- and 64-bit versions); MacOS 10.13 (High Sierra) or higher, iOS, Android.

To capture video and audio presentations, you require the following hardware:

- Microphone (external microphone recommended for better sound quality).
- An internal or external webcam.

For the best experience, please consider the following recommendations:

- Use the latest browser version.
- Avoid using incognito (private windows), to ensure proper functioning of **YuJa** features.
- Activate cookies in your browser for all **YuJa** features to function properly.
