INTRODUCTION

Ouriginal assists you in the prevention and detection of plagiarism. This workshop contains information that will help you become familiar with Ouriginal software. This section will cover:

How to use Ouriginal outside of academic courses.

This document should take you about 10 minutes to read.

If you have any questions, please get in touch with the TLSS by email.

I. ANALYSIS RESULTS

***IMPORTANT: Access Ouriginal only in English. The French interface is not yet ready.***

To access Ouriginal for the first time, click on the Discover tab (1) in your NavBar and then on Ouriginal (2).

You need to register only the first time.
Then, to enter, click **Open Course**.

From now on, as soon as you access the home page, you will find Ouriginal with your courses. Remember to pin it!

II. ANALYSER UN TEXTE

Once you have entered the Original Discovery course, you can upload a document to check for possible similarities with other sources. To do that:

1. Click on **SUBMIT MY WORK**.
2. Click **Submissions**.
3. On the page that opens, you can submit your document by clicking on **Upload (1)**, clicking on **Choose Existing (2)** or dragging it to the space indicated (3).

4. Click **Submit**

5. In the navigation bar, click on **Ouriginal**

6. Click on **Show details (1)**. Then, in the submission’s title, click on the three lines (2) and then on **View report (3)**.
